# Acknowledgements

- Thank you to my parents for supporting me with the project. The teachers helped with every step and always available to answer any questions. Mr Kens feedback helped to make the project better.

# About Me..

- I am Aarav bhatia.
- I am 10 years old
- I stay in Abu Dhabi, UAE
- I am interested in gaming, cricket and coding

# About My Internship with Clevered..

- I learned a lot from this Internship. I enjoyed the class and developing my own app was fun.
- Badges Earned – Rockstar badge for Attentivness.

# About App..

- Keep your city clean.

My App is about Keeping the city clean and a better place to live for a better environment. Its about teahing kids to keep clean and recycle.

## **How do I use the App?**

To use the app, you have to pick up all the trash from the city and put it in the bin to recycle and gain a point.

# Start the app

(This will be repeated for each option of the App)

- **How to start the app**

- To start the game
- 1) Press the Green flag
- 2) You can use the below keys to move to pick up the trash
- Left, right , up and down
- 3) You have to touch the sprites ( trash ) to gain a point.
- 4) Always remember to keep your city and recycle.
